

PRECISION SINE VISE

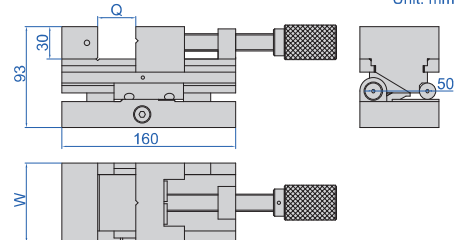

there is a 1mm step (accuracy $\pm 0.002\text{mm}$). gauge blocks smaller than 0,5mm are not available. if small gauge blocks are needed (for example, 0,25mm), a gauge block 1,25mm can be used in order to make $1.25\text{mm}-1\text{mm}=0.25\text{mm}$

6523-80

- Parallelism: $3\mu\text{m}/100\text{mm}$
- Squareness: $5\mu\text{m}/100\text{mm}$
- Accuracy of angle: ± 15 seconds
- Made of SKS tool steel, subzero treatment
- Hardness HRC58-60

Unit: mm

Code	Jaw opening (Q)	Jaw width (W)	Adjustable angle
6523-80	0-80mm	73mm	0-46°
