

TAPER GAUGE AND STEEL RULER SET

use the taper gauge to
measure slot width

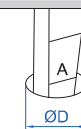

Unit: mm

- Diameter correction table on the taper gauge back
- Made of stainless steel

use the taper gauge to
measure diameter of hole

when measuring diameter of holes, correction on reading is needed due to the thickness of taper gauge, for example, when reading A is 14.96mm, diameter ØD is 15mm

Code	Tool	Range	Graduation	Accuracy
4829-1	taper gauge	0.8-15mm	0.1mm	±0.05mm
	steel ruler	150mm/6"	1.0mm	±0.18mm
